Cat Sense: How the New Feline Science Can Make You a ...

Bradshaw traces the cat's evolution from a wild solitary hunter to today's house pet in the first three chapters, and then, in the next three, looks at cats biology and how this affects their interactions with each other and with humans. The social lives of cats, both with their owners and with other animals, are then examined, and the book concludes with thoughts on the future role of

Cat Sense: How the New Feline Science Can Make You a ...

John Bradshaw is a master of redundancy in both the bad and the good senses of the word. He has a few simple ideas bolstered by sparse research: cats are barely domesticated, cats are not social, cats are predatory and territorial, cats think we are non-hostile cats, cats think we are their mummies, cats use their senses differently than
