Being blind to what our brains can do is slowly changing. Brain researchers recently found that we can now be our own subjects of brain experimentation. Research shows how one can change one's brain by changing one's mind. In her 2010 high school valedictorian speech Erica Goldson courageously said: The majority of students are put through the same brainwashing techniques in order to [Brains Inventing Themselves: Choice and Engaged Learning ...](#)

Inventing Ourselves: The Secret Life of the Teenage Brain ...

The brain creates every feeling, emotion, and desire we experience, and stores every one of our memories. And yet, until very recently, scientists believed our brains were fully developed from childhood on.
