#### **Industrial Marketing Management - Paul Allen**

A service science perspective on business model innovation In this article, we present a new view of value proposition design in the context of complex service systems, and particularly from the perspective of service science. We first describe our service science perspective, and then elaborate our four core principles of service science. In the end, we show how to apply our principles to

#### **A Service Science Perspective on Business Modelling**

Service Science proposes a new worldview on economic exchange. This paper aims at the creation of service system interaction models according to this new worldview using the Resource-Event-Agent (REA) and e3-value business model ontologies. The paper also specifies six design criteria to evaluate the ability of these business model ontologies to create service system interaction models. The
