The Global Network for Spirituality & Health

#### **(GNSAID) | The ...**

Spirituality is a dynamic and intrinsic aspect of humanity through which persons seek ultimate meaning, purpose, and transcendence, and experience relationship to self, family, others, community, society, nature, and the significant or sacred. Spirituality is expressed through beliefs, values, traditions, and practices.

#### **Spirituality, religiosity, aging and health in global ...**

Given the potential for religiosity and spirituality to impact on the health of older persons, there is clearly an advantage to public health that can be gained by better understanding the connection between spirituality, religiosity and health in old age across denominational and ritualistic backgrounds and ways of thinking about religious practice.

#### **Religion, Spirituality, and Health: The Research and ...**

This paper provides a concise but comprehensive review of research on religion/spirituality (R/S) and both mental health and physical health. It is based on a systematic review of original data-based quantitative research published in peer-reviewed journals between 1872 and 2010, including a few seminal articles published since 2010.

#### **Spiritual effects of swearing and why to speak softly ...**

Regular spiritual practice such as chanting creates a protective spiritual covering around us that protects us from the harmful elements in the spiritual dimension such as those generated when others talk loudly or use bad words.

#### **Cultural Health Attributions, Beliefs, and Practices ...**

teaching and learning approaches and philosophies that consider health attributions, beliefs, and practices of patients. **Keywords:** Cultural health attributions, health beliefs, cultural diversity, culture and medical education, culture and healthcare.
