Bibliography Includes bibliographical references.

Publisher's Summary A radical shift is taking place in the way that society is thinking about cities, a change from the machine metaphors of the 20th century to mathematical models of the processes of biological and natural systems.

**Space of flows - Wikipedia**

The space of flows is a high-level cultural abstraction of space and time, and their dynamic interactions with digital age society. The concept was created by the sociologist and cybernetic culture theoretician Manuel Castells to

"reconceptualize new forms of spatial arrangements under the new technological paradigm"; a new type of space that
