Using cooperative game theory, this book shows how bargaining structure affects the distribution of value among the constituent firms of the value chain. Results show that positions in the bargaining structure most conducive to value capture are those where large complementarity gains are realized

[Value Capture - The Personal MBA](#)

Value Capture is the process of retaining some percentage

of the value provided in every Transaction. If you're able to offer another business something that will allow them to bring in \$1 million of additional revenue and you charge \$100,000, you're capturing 10% of the value created by the transaction.
