Worth The Weight (Worth Series Book 1): A Copper Country ...

WORTH THE WEIGHT is a cute little romance story of lost love and opportunities. The heroine, Elizabeth shows back up to town with a plan of seducing her ex boyfriend into sleeping with her after 16 years apart. Finn is completely okay with her plan but has baggage in his life (I'm not giving away what it is because it will spoil the book!) that has a habit of popping in at the worst time. Worth the Weight (The Worth, #1) by Mara Jacobs  
Worth the Weight is my first book by Mara Jacobs. I came across this book as a free read, and wasn't too impressed with some of the reviews for it. Still, it was free and I decided there wouldn't be any loss should I try it and not like it. I'm really happy I took the chance.

worth the weight The weight of a motorhome, or perhaps more importantly, how it is distributed, is something a lot of RVers don't think about. We know that motorhomes are large and heavy, and drive much differently from the passenger cars and trucks we're more accustomed to.

Worth the Weight was one of those books that sucks you in and doesn't spit you out until the last page, when you're left wishing there was more book to be read. It was a perfectly written rom-com true to NYC style. The characters all expertly described and are readily recognizable to anyone having lived in a large urban environment. I have a particular love for the obvious strong female roles.
